

Rebecca E. Schwartz

+1 302-824-1346 | hello@becschwartz.com | becschwartz.com | Berkeley, CA

Education

Master of Engineering in Mechanical Engineering | Control of Robotic and Autonomous Systems
University of California, Berkeley | Expected Graduation: May 2020

Bachelor of Science in Mechanical Engineering | Minor in Engineering Management | June 2019
Pennoni Honors College | College of Engineering | Drexel University, Philadelphia, PA | GPA: 3.58

Projects

Sensor Robots for Emergency Response: Centrally Actuated Mobile Robot Sept. 2019 – Present

- Led hardware assembly to build Squishy Robotics' first centrally actuated mobile robot
- Spring Semester Work: study Model Predictive Control (MPC) simulations of the robot

Advanced Controls

Controlling a Simulated Landing of the SpaceX Starship Rocket on Mars Dec. 2019

- Implemented a Model Predictive Controller (MPC) with reference tracking to land a rocket on Mars
- Tested robustness via varying initial conditions and environmental disturbances

Robotics

Pick and Place Challenge Jan. – March 2019

- Designed and built a 2P 3R Vex robot to meet the requirements of a pick-and-place challenge
- Coded and wired Arduino UNO in C++ to control all 5 selected motors using the serial monitor

Feedback Control with Optical Shaft Encoders Honors Project Jan. – March 2019

- Built a 2R robot to demonstrate feedback control using optical shaft encoders and Arduino UNO

Wearable Energy Harvesting Device Senior Design Project Sept. 2018 – May 2019

- Built wearable energy harvesting components with MXene coated yarns
- Engineered a yarn-coater for mass production of MXene coated yarns for knitted antennas with <\$100

Computer Vision Independent Side Project June – July 2019

- Implemented an image classifier with Google's GPU Compute Engine, Jupyter Notebook, and fastai
- Hand selected 150 impressionist paintings for training and testing, receiving a 67% success rate

Advanced Programming Jan. 2018 – June 2019

- Built and implemented an automatic file organizer in Unix
- Learned object oriented programming (OOP), data structures, and algorithms

Computer Skills

Python, MATLAB, Arduino/ C++, Bash/ Unix, AutoCAD, Creo, Revit, Excel, Jupyter/ Pytorch/ fastai

Professional Experience

Mechanical Engineer Co-op | Bruce Brooks and Associates, Philadelphia, PA Apr. – Sept. 2018

- Designed mechanical and plumbing building systems using fluid mechanics and thermodynamics
- Drafted plumbing, fire protection, and mechanical systems for 10 projects in Revit

Formulations Engineer Co-op | FMC Corporation, Philadelphia, PA Apr. – Sept. 2017

- Managed the front end of a \$400K project to upgrade and relocate an insecticide packaging line
- Designed and implemented a scheme to minimize a biological cleanout's water usage by 42%

Project Manager Co-op | Children's Hospital of Philadelphia, Philadelphia, PA March – July 2016

- Led a \$49K mechanical project to renovate a Variable Air Volume (VAV) system
- Presented need for new piping systems after processing 268 pages of ultrasonic testing data in Excel

Leadership

- President of Drexel Honors Student Advisory Committee (HSAC) June 2018 – June 2019
- International Taekwondo Federation (ITF) Assistant Instructor July 2010 – Sept 2015
